Check our paragliding kit package in our [SHOP](#).

The Training Program

1. PAK1 – Ground Handling

3 days of ground training and first short flights ([Mt Sophie](#))

2 nights' accommodation hb in cabin next to training hill ([Mt Sophie](#))

Learn the basics of paragliding theory

Practice controlling the glider on the ground

Master confident take-offs and landing with short flights

GOAL: You'll be able to train independently on the ground

2. PAK2 – Flight Training

3 days of ground training and first higher flights ([Kijabe Hill](#))

2 nights' accommodation hb in cabin next to training hill ([Mt Sophie](#))

Learn more theory

Practice under radio supervision

Complete Short flights in calm air and 8 higher-altitude flight

GOAL: You'll be ready to fly solo in still air—with radio guidance

Mandatory Before Training

1. Read T&Cs and submit your information on the [Booking Form](#)
2. 30 Day Membership: [Paragliding Association Kenya \(\\$25\)](#)
3. 30 Day Insurance Cover: [Rescue.co \(\\$25\)](#)

What to Wear

- Hiking shoes (ankle high)
- Long trousers & a long-sleeved shirt
- Sun screen and waterbottle (drinking water provided at the Base)
- Helmet & Gloves

Where We Train

Training 1.5h north of Nairobi, on a training field near Longonot Town next to our [Training Base](#) which has three ensuite cabins and a kitchen and space for camping.

We will be training on the field next to our accommodation, utilizing the little hill near it for short flights and also using other training areas in the vicinity. Our cook will be preparing half board meal, delicious Kenyan local food!

Optional Excursions

Sometimes the best way to reset between training sessions is to step away from the launch site and simply be in nature. When you'd like a morning or afternoon off from flying, we would love to take you on one of two unforgettable excursions, both easy day trips from base.

- [**Longonot Crater Hike \(2 to 4 hours\)**](#)

Just 3 km (a 15-minute drive) from camp, this hike takes you right into the heart of a National Park. You will walk the rim of a vast dormant volcano, with sweeping views across the rift valley, and plenty of chances to spot wildlife along the way.

Cost: \$90 for non-residents, including transport and park entry.

- [**Crescent Island Nature Walk \(3 to 4 hours\)**](#)

A short 30-minute drive brings you to the shores of Lake Naivasha, where a boat carries you across to Crescent Island. Here, you do not watch animals from a vehicle; you walk among them. Wander through giraffe, zebra, and antelope territory on foot, then settle in at the island's little snack bar for refreshments before your boat ride back.

Cost: \$90 for non-residents, including transport, boat transfer, and entry.

Frequently Asked Questions

QUESTIONS ABOUT GEAR

Do you rent paragliding gear for training?

For PAK1 and PAK2 Training, the paragliding training gear is included in the price, depending if its available for your size. In the booking form you note your bodyweight. We will get back to you if we have gear for you. Otherwise you will only be able to do PAK1 level

What gear do I need for PAK2 training?

You need your own full paragliding kit, which consists of:

1. Paraglider Wing
2. Harness
3. Safety Parachute

The paraglider, harness and safety parachute need to be correctly sized for each pilot, to ensure maximum safety during flight. Cloudbase Kenya will advise you well on this.

If we have gear available for you, we will use it for PAK2

How much does new paragliding kit cost and how long can I use it for?

It depends on what you choose, estimated \$ 4500 – 5500.

If kept well you will enjoy flying with your gear 10-15 years. Paragliding Kit has great resell value.

Does my first paragliding kit have to be new or can I buy second hand gear?

There is a huge second-hand paraglider market online. The challenge is, that you will most probably order used gear from abroad. This can be tricky as you cannot visually inspect the gear before ordering it in Kenya.

Therefore, we advise to purchase new paragliding kit from us. The advantage is, that you will be well advised of what to purchase and there are product warranties in place.

What paraglider brands are you a distributor for?

We are official distributors of Kenya, for the brands:

- [BGD](#)
- [AIRDESIGN](#)
- [UP](#)
- [SWING](#)
- [NIVIUK](#)
- [SYRIDE Variometers](#)

QUESTIONS ABOUT TRAINING

When do I become an independent pilot?

After PAK2 training.

If you feel confident to fly without supervision, talk to your instructor and he will advise you.

After PAK guidelines, you can fly without radio supervision after PAK3 level, but you can request to fly independently after PAK2 training

Do you issue a Kenya Paragliding License?

The Paragliding Association of Kenya (PAK) can issue you a license, endorsing your paragliding skill levels PAK1 to PAK5 in it in the [PAK Paragliding License Booklet](#).

Where can I see a list of all PAK Training Skill Levels

[Please check on PAK webpage](#)

QUESTIONS ABOUT EQUIPMENT ORDER

What is the shipment time of ordered paragliding kit?

Ordered equipment is shipped from Europe and it usually takes 3-4 weeks for equipment to be in your hands in Kenya

What about European VAT exemption as Cloudbase Kenya ships gear from Europe?

You can either have the equipment ordered to a European address and take it with you as your check-in luggage. With Export papers the VAT can be exempted. However, if you order it directly to Kenya the shipment will be paid inclusive EU VAT but due to the shipper no Kenyan Import Tax will be charged and it comes in as USD15 per kg.

Can I pay a deposit and full amount later?

After you confirm your order, we will send you a Proforma Invoice with Banking details.

Only full upfront payment makes the order possible.
